

search via course name or code

select from a drop down menu of filters

The mockup shows a sidebar on the left with a 'search' input field and a dropdown arrow. Below it are five 'filter by category' sections, each with a dropdown and a text input. The main area has a header with 'Export' and a circular icon. Below the header is a calendar grid with columns for Monday (M), Tuesday (T), Wednesday (W), Thursday (TH), and Friday (F). Two shaded course blocks are visible: one on Tuesday and one on Friday. Arrows point from the sidebar filters to the calendar blocks, and from the 'Export' button to a circular icon.

calendar to add courses to

professor rating

course information pop-up over calendar

This mockup shows the same interface as the first, but with a pop-up window overlaid on the calendar. The pop-up has a title bar with a close button (X), a shaded header, and a row of five star ratings. Below the ratings are several horizontal lines for text. An arrow points from the 'professor rating' label to the star ratings, and another arrow points from the 'course information pop-up over calendar' label to the pop-up window.
